# Introduction

## **Your Birthday, Your Year**

A solar return is the chart cast for the instant the Sun returns to the exact place it was when you were born, at whatever place you happen to be at that moment. That's simple enough. That happens within a day of your birthday every year, so it's your birthday chart - happy birthday!

But what is it really, and what does it mean? It's two things in one:

- 1) It's a sky snapshot, which gives you an idea of what the planets are up to and what kind of things they are cooking up for you around your birthday and in days to come. It's a quick look at the general state of things, your transits, which is always helpful - but you could do that for any day of the year.
- 2) It's a yearly rebirth chart, a picture of a new you reborn each year in slightly different clothing. It's a yearly overlay to your original horoscope which paints a picture of what the coming twelve months will be like - and, just as important, it paints what you yourself will be like in the coming year. And, unlike your natal chart, you can actually do something about it - by choosing where you will be when it happens, you can change your whole year.

There was a time when the yearly solar return was taken as a virtual replacement chart for your original horoscope. In fact, that opinion was so strongly held among astrologers in the 1600s that English astrology giant William Lilly warned practitioners not to neglect the natal chart in favor of the latest solar return. So, it's a big deal. Your natal chart is still the most important description of you, but your solar return each year has a lot to say about how you're developing and what the year has to offer.

## **A Special Event**

Your solar return has some special attributes that make it unique, which require special attention, and which offer unusual opportunities. Because it's an annual rebirth chart, unlike your natal birth chart which lasts a life time, it only lives for a year - but in that year it has its own, scaled-down mini-life, in which the day of the solar return is like the year in miniature. By secondary progression, that means that the events of each successive hour of your solar return day foretell a corresponding two-week segment of the coming year. For that reason, it may be a good

idea to set aside that birthday period and see that it goes thoughtfully and well - and keep track of exactly what happens all day, as much of that may be reflected in the coming year, week by week. Under any circumstances, treat the day as something spiritually special, a time for pulling together your energies and aspirations, making resolutions - in short, rebirth.

### **A Travel Decision**

If at all possible, carefully select where you will be on your solar return - it's better some places than others. That's because although you can't change the planetary aspects that make up the return, what houses the planets fall in and the areas of life they affect are all determined by where you are on the planet. And that's up to you. You can put the Sun strongly in the first house, if you think you need extra independence and will power in the coming year. Or if you need an extra 12-month economic boost, go somewhere that puts Jupiter in or ruling the second house. By traveling just two time zones away from where you normally would be, you change the house position of every planet in the chart and thus your entire physical agenda for the year. In some cases, that can mean the difference between a year of stagnation and a year of progress. It's pretty powerful stuff, and well worth taking the time to cast your solar return for a variety of possible options and pick the one that delivers the most. Some people use this time of year for vacation, and even visit unlikely places they've never been to for the best possible solar return and a new travel adventure rolled into one.

Wherever you go, or if just staying home is your best bet, be sure you are there at least 24 hours ahead of time, and that you stay there at least 24 hours after the solar return. An extra day's leeway on either side of that couldn't hurt, either. Think of it like pouring cement - you want to have enough time to prepare it, and then proper time to set afterwards. It's got to last the whole year through...

# The Foundation for Your Year Sun, Moon, Ascendant

As in a natal chart, the first thing you look at is the position of the Sun, Moon, and Ascendant. Their positions and aspects describe the fundamental vehicle the year will become: they will tell you if you're jumping into a Jaguar or boarding a bus, crowding into a tram or leasing a Lamborghini. Since the Solar return Sun is the same as your natal Sun, any aspects to it are also transiting aspects to your natal horoscope, thus uniquely entwining both charts and making the Solar aspects especially important. The house position of the Sun and Moon tell you where your main action will be all year, and the Ascendant sign show the overall style. Easy aspects of these to the rest of the chart will show a year whizzing by according to plan. Hard aspects will indicate tangles and tests of your resilience. It's all about how to make the most of the best and turn challenges to your advantage to get top results from the year.

## The Ascendant

## Your Looks, Your Presentation

### Great Pride

*Ascendant in Leo*

A sunny outlook often brings on a sunny day, and that's a key to your coming year. Your ability to put a positive, even playful spin on all your operations allows you to gain ground and take territory everywhere you go. If you act like you own it, but are ready to share it, it's yours. The creative process is what drives your situation, with your initial input and then the rest of the world joining in and playing ball. It's all about leading with your heart and growing it a couple of sizes in the process. There's plenty of room when you are the first to provide it.

### You Appear

*Sun Conjunct Ascendant*

This is a very up-front, in-the-lead, personal kind of year for you, in which what they see is what you are and you're quite aware of having to live your image. There's a lot of extra confidence to add to the mix, and there's a physical boost involved that supercharges the feeling. Time to make your move.

## The Midheaven

## Your Reputation, Career, Life Path

### Manage Action

*Midheaven in Aries*

The word is out about you this year a lot more quickly than you might think, but it may not be very accurate when hot off the press. Be prepared to deflect premature rumors while accepting unexpected praise only halfway through the game. In the end, it's the end that counts, however, so don't forget it.

## Manage Intellectual Growth

*Mercury Trine Midheaven*

Ideas you have about the more physical and mundane sides of life this year will go a long way in supporting your overall reputation and getting your image out to the public. Clever management of resources, efficient use of time and money, all are on the table for reconsideration and conceptual improvement.

## Manage Building Value

*Venus Trine Midheaven*

To labor is to pray, according to Benedict, which in part means that you raise yourself up when you lovingly attend to the smallest of things. Good works that come from you bring good words about you, and that process becomes easier than usual this year because you really enjoy doing it.

## Manage Progress Taking Action

*Mars Square Midheaven*

Be careful to avoid trouble because of throwing yourself into things outside the workplace that should actually be going on there instead. Extracurricular activities, so to speak, can distract from the business at hand and wind up siphoning off or splitting necessary energy, with slowdown the result.

## Manage Career Building

*Jupiter Trine Midheaven*

More and greater resources, along with accompanying systems to integrate them into your own personal economy, are a key this year. The result is to expand your reputation, which in turn gives you greater access to resources, and so it goes in a positive feedback cycle. Get more, do more, give more, and around once more.

## Manage Practical Insights

*Uranus Conjoint Midheaven*

Expect surprises at work and discoveries about what they are saying about you that will require immediate action/reaction either to defuse or to capitalize upon. You may seem to some like a bit of an oddball because of your unique window on the world, but you should probably get a prize for it.

## The Sun

## Your Inner Personality and Style

## Adventurer

*Sun in 1st House*

You can lead with sheer force of personality this year as your inner resources are freer and closer to the surface, ready to be tapped. It's all about self-confidence and even a little me-first that helps get you to the head of the line because you truly believe you belong there. You can sell yourself best by simply being yourself and not letting artificial pretensions or needless negotiations get in the way. That doesn't mean you'll always be right, but it will mean you're much more likely to get the chance to find out this year because you're more up front about who you are and where you want to be.

## The Moon

## Your Feelings, Reactions, Emotions

### Psychological Support

*Moon in Pisces*

This year will allow you to take emotional flights of fancy which may stretch both the heart and the imagination to include new feelings and new methods of inner communication. You may allow yourself to become a bit more other-worldly than usual, which you won't regret, as the ordinary boundaries you are used to are themselves not as real as you have come to think. Your practical decisions may take a back seat to motivations that may make you seem a softie, but maybe it's just the time to be that. Following spiritual pursuits will be a no-brainer, but you may have to be ready to shift back again when the year is over.

### Business Support

*Moon in 8th House*

There's a call this year to explore the unknown - to visit lost jungles or vanished civilizations, some of which could be around the world or across history, but most of which may be right next door. It could be in your attic, in an old scrapbook, in talents and aspirations you thought you had put behind you - or perhaps, more externally, in an offer from someone else to underwrite efforts you couldn't do yourself. On a very shallow level, that means mind your credit cards and other debts don't loom too large, but fundamentally it's about feeling about for and finding lost treasure.

### Experiencing

*Moon Opposite Venus*

What you want and how you feel about it may be at odds this year, as your reactions tend to get in the way of your desires. When you crave something (or someone) you'll react too soon or too late to get it, have a change of heart when you do, and other conflicts. Leave time to second-guess yourself until you're sure.

### Inspired Ideas

*Moon Conjunct Neptune*

Clear and concise feelings are not your cup of tea this year, and you won't be able to spell out your inner take chapter and verse, so don't try. You will, however, be able to fake it fabulously, and you can pull off whatever fantasy you choose to purvey, simply by letting your inner guide lead you on.

### Put Up with Change

*Moon Sextile Pluto*

Your faith in your ability to steer your course is sufficiently in place this year that you really don't give it much thought. Quiet confidence has other things to attend to than itself. When the Force is with you, you don't need to force things, but just get on to the business at hand and let the subconscious do its work.

# Personally Speaking

Mercury, Venus, Mars

The inner planets change significantly from year to year and indicate the personal permutations your life is going through. Basically, it's the framework of how you play the game, who else is playing, and how they're playing it. Easy aspects mean you win with no contest, hard aspects suggest a more hard-fought game that may put your life skills to the test and increase your personal growth and talents through experience. Take a look at both sides and consider what games to play, what ones to avoid, and the best strategies - whether you want to raise, hold, or walk away.

## Mercury

## Your Mind and Intellect, Thoughts and Plans, Communication

### Creative Ideas

*Mercury in Leo*

Big ideas with lots of scope and ambition characterize your thinking processes this year, and there may not be the time or inclination to pick up all the stitches. That's what delegating authority is about - just make sure you do it. Your mind is like a championship stadium field, and there's a big game going on.

### Sharp Communications

*Mercury in 1st House*

Ideas come right to the surface this year, slipping out before you know it like extensions of your personality. Even if you didn't make it up, the way you put it sounds like you did, because it's got force and sales power behind it. Saying is believing, however, so remember you're responsible for it.

### Career Thoughts

*Mercury Conjunct Jupiter*

Big plans are in the air this year, and your head will be exploding with countless new ideas that are new and exciting. The challenge will be to pick the ones to go with and put others on hold, even though you'd like to pursue them all. Extras you generously toss aside this year will be thankfully received, come back to you accordingly.

### Public Discipline

*Mercury Square Saturn*

If you think you can't figure it out, it becomes insoluble, and that kind of trap is easy to fall into this year. Negative thinking and/or simply giving up on a problem halfway is worse than not attempting it at all, so choose your thoughts well and then don't be too worried about your choices once underway.

## Embodying Insight

*Mercury Trine Uranus*

There's a pretty continual fresh wind blowing in your brain this year, with enough sparkling new ideas to keep you busy but not so much that you can't keep your feet on the ground. One discovery leads to the next, and before you know it you're traveling a totally new landscape that barely resembles last year's.

## Venus

## Your Needs, Wants, Desires

## Love to Express

*Venus in Leo*

A big, playful appetite and a taste for lots of play sparks your wishing mode this year, so any time you can get into party mode is the right time. Lavish, generous, sharing are what it's all about, because it's not about getting it for yourself, it's about getting it along with everybody else, and leading them to it.

## Direct Love

*Venus in 1st House*

Looks are important, and this year you're leading with them, so check the mirror every now and then. Use charm and friendly persuasion to represent yourself, because that's the real you, not a put-on. You get what you want by simply being up front about it and asking, as if it were your natural expectation.

## Career Ideas

*Venus Conjunct Jupiter*

Your appetite expands this year, and that can range all the way from love to food and everything in between. You just want more, and there's not reason not to go out and get it within reason, of course. And it's not just more, it's about new, original, fresh, crossing new frontiers and tasting new pleasures you've only imagined.

## Public Order

*Venus Square Saturn*

If you're always complaining, you'll never get what you want, and you'll need to resist the temptation to criticize the bird in your hand, or otherwise it will disappear into the bush. The challenge is to firmly grasp the opportunity of the moment, and then move directly to the next. Delay is your enemy, and it lurks within.

## Mars

## Your Energy, Life Force, Excitement

## Drive for Home

*Mars in Cancer*

Keeping your efforts contained and under control allows you to nurture and bring them to fruition. Giving within the confines of the task is everything, but giving away any of it to outside competitors is a no-no. It's your baby, the arrow from your own bow, so take charge of what you do, it's proprietary.

## Urge to Accept

*Mars in 12th House*

Fools rush in, but don't be one of them this year, as the angels aren't giving out guarantees. Rash actions backfire, but working quietly behind the scenes can get you what you want if you take care not to flaunt it. Look twice before you drive each nail ☐ it hurts so much when you miss.

## Keeping in Shape

*Mars Trine Saturn*

Pacing yourself this year is essential, and make it a gradual one and you'll get lots farther than you think. When you make every step count, you build on strength and waste less, especially when you rely on tried and true ways to get your work done, not experimental substitutes. Stride with care.

## Signs of Progress

*Mars Square Uranus*

Work rhythms can be somewhat jagged this year, with a stop-and-go quality that comes from changing circumstances that require constant adjustments. You can waste a lot of energy overadjusting your course, so don't reverse the wheel or gun the engine with every little change in scenery. Try for an even hand, despite irregularities.

Every year sees the giant planets, the wielders of social and economic change, move along a significant notch, opening new doors of opportunity, while closing others. Each solar return suggests a new shift in strategy to get you where you're going and keep you ahead of the game. It's about what's new and what's not, what's happening and what's history. When you know when the shift is about to start and where it's going, you know which way to steer.

**Jupiter** **Ambitions, Goals, Possibilities**

**Expressive Career** *Jupiter in Leo*  
 New ventures this coming year will tend be all about creativity and rampant possibilities, hang the details. It's fun to roll with the blue-sky crowd, but don't count on cashing in on everything or taking it to the limits first imagined. Still, you hit the mark by aiming high.

**Career of Action** *Jupiter in 1st House*  
 You have a unique chance to tag on to all that is seen as new, hot, and happening this year, a sky hook just waiting to engage. You feel like you're the person on the leading edge and you will be to the extent that you put out that message. You can do it, if you say you can, and they'll believe you.

**Public Law** *Jupiter Square Saturn*  
 This one-year-in-ten year is full of shifts and changes, struggles and dissatisfactions, confusion of purpose or profit in the world in general. If you didn't think ahead and see this coming, you can find yourself rather at the mercy of changing storms. Don't go for an easy fix, as a good one probably won't be available. The wise are waiting, not wading in.

**Path to Success** *Jupiter Trine Uranus*  
 This year it's generally more all right to experiment with the unusual, pursue original approaches, follow those flashes of insight however strange they might seem. Partially, it's because what you might have thought strange not long ago now seems lucidly obvious and everyone wants a piece of the action.

## Saturn

## Caution, Wariness, Wisdom, Boundaries

### Obstacle: Business

*Saturn in Scorpio*

Those who have been keeping the wrong sort of secrets will pay for it, but not necessarily in public. Secret or private endings abound and behind-the-scenes justice may give the appearance of business as usual, belying the true change in course. Open and aboveboard is the safest place for you to be.

### Obstacle: Security

*Saturn in 4th House*

If your place is overloaded with stuff, get rid of some of it this year. A lot of what you think is essential to your act is totally extraneous, getting in your way, and now is the time to clean house. You really require less space, which means less to support and defend. Choose what you truly treasure, embrace that.

The positions of the outer Planets - Uranus, Neptune, and Pluto - change little from one Solar return to the next, so they add more of a backdrop, the stage set on which the yearly play is performed. They are very powerful, however, and their long-running helpful and troublesome aspects are not to be taken lightly. They can be like a rope to swing yourself across the stage or a trap door that will cause a fall if you're not watching. Knowing their aspects with the other inner planets and the Lights, and where they fall by house, lets you in on just where to watch for them, what mood they're in, and how to get them on your side.

## Uranus Discovery, Revelations, New Ground

### Freedom: Action

*Uranus in Aries*

Discoveries are made by forcing the issue in this seven-year period. Breaks and discontinuities seem to come from out of the blue, even though they have been gestating for some time. Belief systems around you change radically at sudden shear points, revealing the obvious only after the fact, leaving the most aggressive in charge.

### Freedom: Spiritual

*Uranus in 9th House*

You'll think you have a handle on the big picture this year right up to the point that it splits apart and reveals a whole different dimension that requires scrambling to embrace. Don't drop everything the first time, however, as it may happen sporadically and will settle out as you get used to the new view.

### Progress

*Uranus Square Pluto*

This several-year period (most recently centering around 1933) occurs only once every 128 years and is reputed to have the effect of transforming and sometimes violent technological progress upon society at large. Too lengthy to have much more than a background effect, it nevertheless sets the tone of the period.

## Neptune Dreams, Hopes, and Fantasies

### Embrace: Life

*Neptune in Pisces*

Spiritual revival will be just one hallmark of this period, as will a general tendency for those who pretend to it not to give to those who actually do it. Flights of romanticism are daily fare, even to those whose life is not romantic in the least. When there is nothing else, there is always a dream, a pure dream, waiting just beyond.

## Embrace: Business

*Neptune in 8th House*

Mystery for its own sake has a strong allure this year, as nothing fuels fantasies like not knowing what's out there, and knowing that you don't. Don't run up a big charge trying to find out, since by definition you cannot, but it's worth some small change for the thrill. Exploring the unknown is by nature done in the dark.

## Change Blocked

*Neptune Sextile Pluto*

This year sees you part of a rare but lengthy outer planet dance that happened throughout the 1950s and again in the 1970s and puts a deep background of a generation when spiritual issues are not forced but sort of proceed in a leisurely matter without conflict, either because of mutual respect or blissful unawareness.

## Pluto

## Necessity and Fate, Power, What Must Be

## Control: Practicality

*Pluto in Capricorn*

A period of sixteen years of a culture value shift toward getting business done as if it were a mission is underway. It will create vast wealth, as it will have little to hold it back morally - but the generation spawned by this period will have to redesign the great structures so made in a deconstruction of what went before. Like when cement skyscrapers were first built - they were touted to last longer than the pyramids, but a generation later they began to fall to the wrecking ball.

## Control: Care

*Pluto in 6th House*

The urge to trample out the vintage where the seeds of annoyance are stored is great this year, but sweeping away the trammels of everyday responsibilities may get you only so far. Revolutionize your schedule, and ever your reason for having one, but don't do away with it altogether. Something must abide to renew.

# Featured Natal Positions

Your Best Foot Forward

When Solar return positions occupy the same spaces as planets in your natal chart, this highlights those natal inclinations for the whole year. It will mean that certain elements in your fundamental character will be emphasized both internally and externally. These will be the areas that most appear to represent you for the moment and that others will seize upon as entry points to your personality. These are the areas in which you can put your best foot forward to make the most effective and satisfying steps ahead, your first line of challenges and opportunities to embrace the world.

## Venus

### Your Needs, Wants, Desires

#### Ideas of Love

*Mercury Conjunct Venus*

Your mind directly engages and analyzes your desires this year, so you take the time to make it clear exactly what you want. You've got a Christmas list going all year long, which actually makes you much easier to please and more likely to get what (or who) you're after. Ask and you shall receive, but you've got to know what to ask for and how to put forward the request.

## Venus

### Your Needs, Wants, Desires

#### Accent on Values

*Venus Conjunct Venus*

You take another step in understanding and living out your own desires this year, as if re-familiarizing yourself with what you want and your style of going about getting it. That means reformulating and refining goals to build on what's already there and bring a greater level of consistency and insistence that brings success that's uniquely you.

## Mars

### Your Energy, Life Force, Excitement

#### Accent on Action

*Mars Conjunct Mars*

This year is a work-cycle peak, when new projects, new positions, new energies come into play and you find yourself gung-ho to get going with what's just made itself available for action. That can mean more money and more effort expended to get it, but you'll have enough to spare, at least at the beginning, fueled by enthusiasm for the new.

## Venus

### Your Needs, Wants, Desires

#### Career Ideas

*Jupiter Conjunct Venus*

Real tangible personal gain may be expected, or at least some events that lead to it. A good time for cashing in on investments or pulling in receipts of any description. Similarly, investments may prove more favorable, but better to go for the bird in the hand when it is here for the taking.

# Featured Natal Positions (continuation)

## Neptune

## Dreams, Hopes, and Fantasies

### Reality Visions

*Saturn Conjunct Neptune*

A serious cutting back on your intuitive powers may be expected and with it much of the romance of life finds itself on the wane. Practicalities will be more important and fantasies, however beautiful, will be forced to take a back seat. At the same time, fantasies that CAN come true will more likely be realized.

## Saturn

## Caution, Wariness, Wisdom, Boundaries

### Insights

*Uranus Conjunct Saturn*

This is a time when most of your limitations, and in many cases your foundations as well, will get blown clean away, allowing you to write your own ticket on a clean slate if you have the energy and fortitude to do so. Abandon the past and rapidly mold the future and you will have built a new world.

## Ascendant

## Your Looks, Your Presentation

### Insights Appear

*Uranus Conjunct Ascendant*

You are in a high-risk year for physical accidents and personal harm so you should take extra precautions to protect yourself by moving more deliberately and thoughtfully. Suddenness and overspontaneity are your greatest foes for the moment; watchfulness and second thoughts your friends.

## Midheaven

## Your Reputation, Career, Life Path

### Manage Practical Power

*Pluto Conjunct Midheaven*

This year the current state of your reputation is being extinguished, at least in its present form, and replaced with another visage entirely. The transition may be difficult and require a serious career change, but the final results need not be deleterious, despite initial impressions.

## Saturn

## Caution, Wariness, Wisdom, Boundaries

### Manage Problems

*Midheaven Conjunct Saturn*

People are likely to hear more about your conservative side, if you have one, or invent one, if you don't. That's a good opportunity to be talked about as older, wiser, and more accomplished, but it won't get you an assignment on the front lines. It's a great chance to repurpose your previous achievements, however.

## Ascendant

## Your Looks, Your Presentation

### Manage Appearance

*Midheaven Conjunct Ascendant*

Although the masses may not crowd around waving pictures of you on sticks, there's a background feeling like they're doing just that. Expect your picture to be passed around and what you look like to be talked about more than you might imagine. What they see is who you are, or that is what they believe.

## Featured Natal Positions (continuation)

### Sun

### Your Inner Personality and Style

#### You Appear

*Ascendant Conjunct Sun*

Your personality, the inner you, is going to seem a lot more like the outer you this year, which gives you a lot of inner strength and consistency, because what they see is what they get, easier for everybody. It also makes you a little bit too obvious now and then, so be willing to let up on the throttle now and again.

### Mercury

### Your Mind and Intellect, Thoughts and Plans, Communication

#### Thoughts Arise

*Ascendant Conjunct Mercury*

You can put out a convincing story this year because you not only look like you believe it, you look like you should be playing the lead part in it. Central casting would definitely choose you to act in your script. It also means that if you're talking to the wrong customer, the instant shutdown will make it obvious you should move on to better pastures.

Where you spend your birthday and how the sky looks from that location can profoundly affect how your year turns out. The ideal birthday chart has the most favorable planets up front, ready to push you forward and the more troublesome ones tucked away where they can cause the least mischief. Sometimes that happens right where you would normally be, so you can just stay home for your birthday. Sometimes the best place to be is on the other side of the globe, involving an expensive (though perhaps exciting) journey. Often, however, just moving a few hundred miles east or west just for the twenty-four hours before and after your solar return can make all the difference in the world, allowing you to put your best foot forward for the entire year.

Here are a list of places near you and around the world and how being there would affect your coming year. Some are good for growth and expansion, others for learning there are places better for money and career, or others best for home and family development. You choose, and then perhaps take a look at a second, revised report for your new place of choice, your travel decision to improve the year. You will likely find it reads quite differently in many critical areas and perhaps worth the travel expenses to maximize your twelve months ahead.

Take a look at your choices, then decide where to go on your birthday, in order to get to where you want to be the rest of the year.

From Aug 02, 2015 to Aug 2, 2016

As the year moves on, so does your Solar Return chart: it swings around an entire 360 degrees by daily progression and the Moon moves half a sign. At the same time, transiting events in the sky trigger sensitive degrees of your birthday chart. These are the times to look for specific events that activate these parts of your yearly picture and will offer times for making your best moves. These, together with your natal transits and progressions, paint the daily picture of your coming year, from birthday to birthday, until your next Solar Return.

**Manage Problems**

*Midheaven on Saturn (PSR-NA)*

Expect some criticism in the wind, especially about your job or work efforts, but don't react with resentment unless it's untrue. If you've got a flaw or two (and you do), better it should be known and admitted to than blatantly denied. On the other hand, this is a time when your reliable side is particularly noticed.

Big appetites and a large bite out of life depict the day, and that means dig right in there but don't overdo, whatever need you are satisfying. Spectacular beauty will characterize launches in love or money, but it might be well to take overweening charm with a barrel of salt. Nevertheless, go ahead and revel in it.

**Teaching Ideas**

*Sun Conjunct Mercury (TR-SR)*

High mental energy burns hot, a real brain boiler. The trick is to keep up with everyone without missing a stitch or dropping the ball. Great ideas abound, but don't buy everything you see until you give it a second, cooler look. Everyone can be too close to the subject to realize that what recommends it is only the heat of the moment.

**Inspired Ideas**

*Moon Conjunct Neptune (PSR-SR)*

You've reached the dreamiest part of the year, or at least the most out of focus, which means you've got your antennae up feeling for signals that promise much but define little until you hone in on one. But now you can feel them all, and that can put you in touch with everything for a short, special time.

**Thoughts Arise**

*Ascendant on Mercury (PSR-SR)*

For a moment you can't believe you just heard yourself say that - solutions come pouring out of your mouth and you're sought out (or just stumbled upon) to provide them out of the blue. Yes, you really are cleverer than you thought, and it's a couple of days to make the most of your own articulation.

**Values Are Apparent**

*Ascendant on Venus (PSR-NA)*

You look so good today you could kiss your mirror, but let someone else do that for you instead. When you feel especially charming and desirable, that's what you project, so this is the perfect day or so to get out there and woo who and what you want, because they're going to want a piece of you, too.

**Ideas for Success**

*Sun Conjunct Jupiter (TR-SR)*

Bounty and plenty are in the atmosphere to be tapped, and bright prospects are available to those who tune in right now. Overstated enthusiasm may be taken with a grain of salt, but the feeling is right and it's the perfect thing to build on. For a moment, the triumph of the will seems to be in sight.

**Love of the Future**

*Sun Conjunct Venus (TR-SR)*

Ego compounding desire can make this moment hot but nearsighted at the same time. In the passion of the moment all are more likely looking out for number one than for the general good, and the possibility of missing the long-range win is real. Seek what you want, but remember you'll still have needs tomorrow.

Overweening eagerness lacks staying power, but ardor can be a thrill when channeled.

It may be hard to get your head into gear, but once you do, you can go into great detail. Thoroughness is the watchword and you will not want to be in the company of scatterbrains. You're beginning to see yourself getting noticed as a result of the last few months' efforts, and it might be well to double-check that they're getting the right message and are correctly passing on the image you'd like to build your reputation on. Mystery holds much appeal and the more difficult it is to put a finger on, the more people are going to want it. **Ideas for Effort**

*Sun Conjunct Mars (TR-SR)*

High physical energy is pushed by extra motivation and a lot can be accomplished as long as burnout is avoided. Push it to the edge and then back off before pulling a muscle. Similarly, don't let the person behind you urge you beyond your limits. The power available should be harvested, then invested.

**Actions Arise**

*Ascendant on Mars (PSR-NA)*

The urge to aggressively get things done may rather suddenly present itself, and since it's brief, you'd do well to hitch your wagon to the energy and get twice as much work done. Just mind you don't push too hard too fast or you could break something, especially when your dealing with delicate situations.

**Thoughts Arise**

*Ascendant on Mercury (PSR-NA)*

For a moment you can't believe you just heard yourself say that - solutions come pouring out of your mouth and you're sought out (or just stumbled upon) to provide them out of the blue. Yes, you really are cleverer than you thought, and it's a couple of days to make the most of your own articulation.

**Discipline Ideas**

*Mars Conjunct Saturn (TR-SR)*

A lot of people may be running out of steam right now, but those who are keeping up establish a pace that just won't quit. Conservation of energy and using only just what you need to get the job done is the lesson to be learned, and operations begun now will be long-term marathon performers. Banked fires burn hot.

**Manage Practical Insights**

*Midheaven on Uranus (PSR-SR)*

Strange things surface about you which may be sudden recognition of your unexpectedly inventive side or just rumors about how offbeat you are. It's likely to be a revelation you'll want to hear about, however, so keep your ear to the ground. Forgive blunt remarks, as they're helpful in the end.

**Career Thoughts**

*Mercury Conjunct Jupiter (TR-SR)*

All kinds of new plans and schemes fill the air, and if you can latch onto one that really works, you can go far. If there is a problem, it is winnowing out the best from the rest and settling on what to do with it. No time for details now, just get the concepts right and lay down big plans for the future.

*Midheaven on Saturn (PSR-NA)*

Expect some criticism in the wind, especially about your job or work efforts, but don't react with resentment unless it's untrue. If you've got a flaw or two (and you do), better it should be known and admitted to than blatantly denied. On the other hand, this is a time when your reliable side is particularly noticed.

# Conclusion

## **Conclusion: Now That You Know, Where Do You Go?**

With the pattern of your coming year described for you now, what's the best way to use all this information? Forewarned is forearmed, and there are several things you can do to maximize your knowledge and get the most out of the year.

### **1. Make Sure You're In The Right Place**

It really does matter where you are for the twenty-four hours on either side of your birthday chart. A basically good year can be made even better by getting the right planets on the horizon or overhead, and a difficult year can be made easier by simply sidelining some of the challenges. Check out several different locations - more often than not, a change of only a few hundred miles east or west of where you are may make all the difference in the world. And, it's a great excuse for a birthday trip.

### **2. Keep Notes On Your Special Day**

It is not unusual that the twenty-four hours of your solar return will be a symbolic miniature of the coming year, in which the happenings of each two-hour period will reflect a corresponding one-month period of the year. Of course, you'll likely sleep through eight hours of it, but keep notes on the rest and guide your activities to make it the best possible day. Along with the report text, it will give you further clues to what's coming and when.

### **3. Pay attention to what's in the text and use it well.**

That means getting in there and making the best of the favorable periods and if possible simply avoiding unnecessary action or at least backing off during the periods that might cause trouble. Seize opportunities and dodge (don't confront) troublesome roadblocks. Better to do nothing than do something disastrous. Then move ahead when the coast is clear. That way you make only forward progress.

### **4. Think Ahead To Next Year**

As you watch this year unfold, take a look at your next birthday chart well ahead of time so you can be where you should be to make it dovetail perfectly with what you're already doing. Smooth transitions save time, boost success and happiness.

### **5. Take It In Context, Put It All Together**

birthday chart is not the only thing that describes your coming year. It's just an overlay of likelihoods, which mixes in with the other astrological windows on your future like transits and progressions. Include the rest and combine them all for a maximized 365 days ahead for you. When you bring everything to bear, nothing gets left out, and neither do you. It's yours for the taking, now go for it.
